

Scripture Study Take 2

For the next three weeks you will be studying scripture in a fun and new way. At least I think it is fun and new. And Jesus probably does too. So there.

(:

1. When you read the chapter through the first time..... you get to annotate as you please!
Take notes, look up words, find 2 cross references, underline what sticks out to you, write questions, etc.
2. The second time you read this through, you will be rewriting the scripture in your own words! You will take this verse by verse, not just a two or three sentence summary. Take max 3 verses at a time, then rewrite what the scripture is saying.
3. Finally, read it through once more for good measure! (:
